ABOUT ME

Dynamic Full Stack Developer with a specialized focus in Salesforce ecosystem development and web technologies. Currently advancing innovative solutions at LORTechnologies while pursuing a Bachelor of Science in Computing. Demonstrates expertise in building responsive applications using Vue.js, Node.js, and PostgreSQL, alongside strong Salesforce administration capabilities in automation and CRM optimization. Proficient in Python, JavaScript, and C#, with a proven ability to translate complex business requirements into elegant technical solutions.

My passion extends beyond coding. I'm deeply involved in initiatives that help bring technology education to underserved communities, with a special focus on mentoring aspiring women developers. I believe in building technology that not only drives business success but also opens doors for others, particularly those who might not traditionally have access to tech opportunities.

WORK EXPERIENCE

LORTechnologies
Sep 2024

FULL STACK DEVELOPER INTERN

- Rebuilt the company websites using HTML,CSS and JavaScript.
- Web development and testing
- Worked on designing apps using these stacks; Vue.js, Vue 3 Composition API, Vue Router, Tailwind CSS, Node.js, TypeScript, Drizzle ORM, Hono.js, and PostgreSQL.
